- **General Skills:** Communication, Time Management, Sales, Customer Service, Problem-solving, Organization
- **Languages:** Bilingual in English and Spanish

Licenses and Certifications

SIMNET-Excel Yellow Belt
SIMNET-Excel White Belt

SOFTWARE PROJECTS

Application Programming Interface Project   - - -
- Developed a robust, cross platform application designed to efficiently download various media formats, including videos, music, and images. The application offers a seamless and user-friendly experience for accessing and saving content from a wide range of online sources.
- Used SQL and Java to successfully complete it.

Froilan Project
- Designed and implemented a software system that simulated a farm environment which emphasized the exploration of multiple inheritance design challenges and potential solutions.
- Used Java and UML to successfully complete it.

SQL Assessment Project
- Created a MySQL database and populated it with a table that stored information about movies, including title, runtime, genre, and rating. This project enabled me to execute a range of SQL queries to effectively manipulate and retrieve data from the database.

EXPERIENCE

Maxx Potential Internship

- **Help Desk Support:** Provided technical support and troubleshooting assistance, resolving issues promptly and enhancing user satisfaction.

- **Application Development:** Participated in the design, development, and testing of applications, contributing to both front-end and back-end development tasks.
- **Real-World Project Experience:** Collaborated on various real-world projects, gaining hands-on experience in developing and implementing solutions that addressed actual business challenges.
